Resume

Junior PT \ Cyber Security\ Soc

Full name: Ross Stupak , Home Address: Ephraim Tsur 46 , Ashkelon , South Israel , Holder of a driver's license and vehicle, Phone: +972509971799
Linkedin:https://www.linkedin.com/in/ross-stupak-ba313820a/ email: Rosstupak@gmail.com.
language: Hebrew(native), Russian(native) English(Reads and writes)

I am a graduate of the Information Security course at HackerU College, during my studies I gained a lot of knowledge and practical work on a variety of operating systems, programming languages, tools in Github or independently writing tools in Python and submitting project work.
 In my free time I often sit for self-learning on platforms like Tryhackme, Hackerone, Hackthebox, read articles, learn about tools, out of the desire to learn and get to know new things, curiosity and to be updated on what is happening in the cyber world.
I am interested in finding a job in the field, I work out of the desire to learn and develop, willing to give of myself above so that I can integrate into the high-tech world.
