Peleg Admi *Backend Developer*

📍 Israel ✉ pelegadmi@gmail.com 📞 052-5708366

Profile

- Software developer with four years of experience developing Backend-Services & Full-Stack products
- Successfully led complex End-to-end products from initiation to post-implementation
- Development and integration of ASP.NET & React.js applications within the organization
- Initiation of microservices-based solutions in IDF

Professional Experience

08/2021 – present

Full-Stack Team Lead, *IDF*
- Supervision of 5 programmers engaged in multiple areas, such as frontend/web, backend, and desktop development.
- On-going Interface, meetings, and decision-making with different IDF units from early project development phases
- Meet projects' tight schedules while keeping high-end quality standards
- Adopt Agile methodology (specifically Scrum) inside the team and the division in some of the projects, leading to a growth of more than 50% in team productiveness and more than 70% in products quality

08/2021 – present

Back-End Developer, *IDF*
- Knowledge of REST and a wide range of protocols/ APIs (such as HTTP/REST, SignalR, TCP/UDP, ZeroMQ, MQTT, ...)
- Experience writing backend microservices
- Delivered complex client applications (including desktop and web applications)
- Experience with broker technologies/frameworks (like RabbitMQ)
- Experience with Entity Framework as an ORM framework
- Knowledge of many DB/Storage engines (such as MySQL, MongoDB, and Redis)

03/2021 – 08/2021

Full-Stack Developer, *Elbit Systems*
- Created backend services as part of the overall IDF system in ASP.NET
- Took part in a few frontend features in Vue.js

06/2019 – 03/2021

Embedded Linux Software Developer, *IDF*
- Developed userspace applications in C/C++

Education

2020 – 2023

Bachelor of Science - BS, Computer Science,
The College of Management Academic Studies

2018 – 2020

Practical Engineer, Computer Science, *ORT Colleges*

Skills

| Backend Development | ASP.NET | C# | Entity Framework | Software Architecture |

| Microservices | RabbitMQ | MongoDB | MySQL | Git | Unit Testing |

| Agile Methologies | JavaScript | C/C++ |

Languages

| Hebrew | English |
